PRESS RELEASE

## **Banca IFIS takes part, on a pro-quota basis, in the resolution process of four Italian banks**

Mestre (Venice), November 27, 2015 - Banca IFIS announces that the cumulative impact of its lending support to the banking system in order to resolve the crisis of Banca Marche, Banca Popolare dell'Etruria e del Lazio, CariChieti and Cassa di Risparmio di Ferrara (59/201/UE Single Resolution Fund Directive) and its participation in the new FITD financing mechanism introduced by the 2014/49/UE Directive for deposit guarantee systems (DGSD) will be **approximately 10 million euro**.

Contributions to the Fondo di Risoluzione Nazionale (National Resolution Fund) so far requested from Banca IFIS, including extraordinary contribution, equal a total of 8,5 million euro. About 2 million euro relates to the 2015 yearly ordinary FITD contribution.

Banca IFIS, dedicated to collaboration and transparency towards stakeholders and regulators, stresses that the impact **will be partially offset by non-recurring gains** and, therefore, **there will be no negative effect on the bank's profitability**. Banca IFIS's commitment remains focused on further increasing its profits thanks to the results expected from its core businesses – trade receivables, distressed retail loans and tax receivables – whilst continuing to maintain excellent capital ratios thanks to its sustainable business model. Banca IFIS considers that the previously announced dividend distribution policy will remain firm.
